Company Overwhelmed With Orders for Small, Premium Sound Amplifier That Costs Less Than \$20.

It used to cost a fortune to get a personal sound amplifier with good sound quality.

However, one company is changing that, and has turned the industry upside down with a top-of-the-line solution, for less than \$20.

How can they do this ... The company explains, "Personal Sound Amplifiers have been around for a long time. The technology used today is based on the same technology that was used decades ago. What has changed the most is the design and size. Each year they get smaller and smaller, yet still retain their core ability to amplify sound for anyone."

"Our sound amplification device, called Invisi-Ear, offers the same advanced technology, but at a price anyone can afford. We also cut out the middleman and sell directly to the consumer. We buy in large quantities and pass the savings on to the buyer. Simply put, there's no reason to pay a fortune any longer!"

Invisi-Ear boasts a nearly invisible design for those who are sensitive to having a device in their ear.

Invisi-Ear believes they are highly-popular right now for 3 distinct reasons:

1) **The sound quality is exceptional.** That's why a person buys Invisi-Ear in the first place. Because they want to make

hearing other people, TVs, radios, etc., easier. And the advanced micro-electronic amplification technology in each Invisi-Ear does not disappoint.

Buyers quickly see that Invisi-Ear truly delivers crystal-clear sound reception.

2) **It's nearly invisible.** Many people are sensitive about this topic, and don't really want any listening device to be seen. So Invisi-Ear was designed to be ultra-small, lightweight and very comfortable. In fact, the clear tube design makes it almost invisible. Invisi-Ear users report that it's so incredibly discreet that only they know it's there.

3) **The price is absolutely astounding for the quality you get.** Invisi-Ear supercharges your hearing – increasing the weakest sound to audible levels – at a super low price that anyone can afford.

Those are the 3 reasons why most people upgrade to Invisi-Ear. But after they start using Invisi-Ear, their life literally changes. With Invisi-Ear, all this becomes a reality: They can hear *everything* easier... the TV, the stereo, the car radio – without turning it up and disturbing others.

They can join in conversations they used to avoid – and they don't miss a word.

They can bring it to the theater or the movies and not miss any of the action.

They can hear the doorbell, a knock on the front door, or a car horn while driving.

They can hear all nature's beautiful sounds.

And they can hear what others are saying – even if they're far away.

Each Invisi-Ear has adjustable volume control, and fits both the left and right ear. Each one also comes complete with a battery that holds approximately

100 hours of listening time. You also get 6 rubberized earplugs in different sizes, so you can enjoy a customized fit, regardless of ear size.

You can order Invisi-Ear directly from the company risk free for only \$19.95 each by calling 1-800-550-5700. They are *not* sold in stores. And the company is so confident you'll see a quick improvement, they back Invisi-Ear with a **Full 90-day Money Back Guarantee.**

If you don't get the results you're happy with within 90 days, simply send it back for a full refund (less S/H). No questions asked.

Plus, they'll give you **FREE S/H** when you order 2 or more Invisi-Ear devices. In case you need one or two for you, and one or two for your spouse.

Amazing Direct Offer:

\$19.95

And for a limited time they'll also send you a 4-pack of batteries for only \$5.99. Each battery has approximately 100 hours of listening time.

Call now 1-800-550-5700.
