gently rising volume to ease you into your day. Want to hear lifelike sound from your TV or MP3 player? Simply connect the additional source to your system and enjoy. Wayne Thompson of the *Oregonian* calls it "one-of-a-kind...my choice for product of the year."

The Multi-CD Changer makes it even more appreciated.

Designed exclusively for the Wave® music system, the optional Multi-CD Changer allows you to enjoy convincingly accurate sound for hours on end. One CD goes in the Wave® music system, and three more go in the changer. They work as one. You can even play MP3 CDs and, when they're suitably encoded, see the song title and artist's name in the display. So you can fully enjoy your favorite music without interruption.
